

```
#include<stdio.h>
#include<conio.h>

void main()
{
    int y;
    clrscr();
    printf("Enter year:");
    scanf("%d",&y);
    if(y%4==0)
    {
        printf("%d is a leap year",y);
    }
    else
    {
        printf("%d is not a leap year",y);
    }
    getch();
}
```
