

```
void main()
{
    auto int a = 10;
    {
        int a = 100 , b = 200;
        clrscr();
        printf("\n a = %d \t b = %d",a,b);
    }
    printf("\n a = %d",a);
    printf("\n b = %d",b);
    getch();
}
```
