

```
// Demo Of printf and scanf
```

```
#include<stdio.h>
```

```
#include<conio.h>
```

```
void main()
```

```
{
```

```
    int a;
```

```
    float b;
```

```
    clrscr();
```

```
    printf("Enter an int no.:");
```

```
    scanf("%d",&a); // Store inputted int(%d) value at address of a
```

```
    printf("Enter a float no.:");
```

```
    scanf("%f",&b); // Store inputted float(%f) value at address of b
```

```
    printf("\n a = %d \t b = %f",a,b);
```

```
    getch();
```

```
}
```
