```c
// Example Of While
// Input an int no. WAP that print sum of individual digits of the no.

void main()
{
        int n, r, s=0, l;
        clrscr();
        printf("Enter a no:");
        scanf("%d",&n);
        l=n%10;
        while(n>=10)
        {
//          r = n % 10;
            n = n / 10;
        }
        s = l + n;
        printf("\n sum = %d",s);
        getch();
}
/*
        s       n       r
        0       528      8
        0+8=8 52       2
        8+2=10          5      5
        10+5=15         0
*/
// Input an int no. WAP that print sum of first and last digit of the no.
```
