```c
void main()
{
    int n;
    clrscr();
    printf("Enter a no.");
    scanf("%d",&n);
    n%2==0?printf("%d is Even",n):printf("%d is Odd",n);

    n==0 ? printf("\n %d is zero") : n>0 ? printf("\n %d is +ve") : printf("\n %d
is -ve");

    getch();
}
```
